

## PLAN DE MEJORAMIENTO AÑO 2024 PERÍODO 1

<b>ASIGNATURA</b>	Inglés			<b>GRADO</b>	<b>8º</b>
<b>DOCENTE</b>	<b>Johanna Rodríguez</b>			<b>CURSOS</b>	<b>801, 802, 803 &amp; 804</b>
<b>SEDE</b>	A	JORNADA	TARDE	<b>FECHA</b>	<b>6, 7 y 8 de mayo</b>

### DESEMPEÑOS

- ✚ **Pensar:** Conoce estructuras gramaticales básicas del idioma relacionadas con tiempos verbales simples, verbos modales CAN / COULD / SHOULD/ SHOLDN'T para presentar ideas posibles para mejorar el cuidado del medio ambiente.
- ✚ **Hacer:** Realiza exposiciones orales en las cuales presenta sus ideas sobre el cuidado del medio ambiente y contrasta el impacto que tienen las acciones humanas realizadas en su cotidianidad y el consumo de diversos productos haciendo uso de las estructuras gramaticales trabajadas en clase.
- ✚ **Ser-convivir:** Intercambia ideas sobre el medio ambiente de forma oral y escrita respetando siempre la diferencia de opiniones para fortalecer habilidades sociales relacionadas con la empatía.

### DESCRIPCIÓN DE LA ACTIVIDAD/TALLER

1. Desarrolla el taller propuesto como repaso y profundización (ver anexo).

### CRITERIOS PARA LA PRESENTACIÓN DE LA ACTIVIDAD/TALLER

1. Hacer el repaso en su TOTALIDAD, tomar apuntes, hacer los ejercicios es requisito para presentar la sustentación. Se sustenta de manera oral y escrita.
2. Buena caligrafía, puntuación, orden.
3. Puntualidad y asistencia en la entrega y sustentación de las actividades.

### CRITERIOS DE EVALUACIÓN

1. Taller 30%
2. Sustentación oral y escrita 70%

### FECHA DE SUSTENTACIÓN

En horario de clases establecido por la institución del 6,7 y 8 de mayo.

### OBSERVACIONES

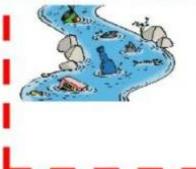

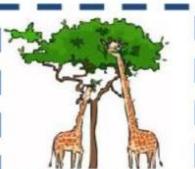

*Good luck and try hard!!!*

## Workshop 8° JT Environment

1) VOCABULARY: Choose actions that are affecting the environment.

# Global Issues

Choose the correct answer.

			
<b>a) deforestation</b> <b>b) oil spill</b> <b>c) exploitation</b>	<b>a) terrorism</b> <b>b) over fishing</b> <b>c) over population</b>	<b>a) exhaust fumes</b> <b>b) land fill</b> <b>c) river pollution</b>	<b>a) child labour</b> <b>b) ice cap melting</b> <b>c) plastic pollution</b>
			
<b>a) oil spill</b> <b>b) deforestation</b> <b>c) acid rain</b>	<b>a) drought</b> <b>b) extinction</b> <b>c) homelessness</b>	<b>a) avalanche</b> <b>b) plastic pollution</b> <b>c) climate change</b>	<b>a) volcano</b> <b>b) landslide</b> <b>c) littering</b>
			
<b>a) tsunami</b> <b>b) terrorism</b> <b>c) consumerism</b>	<b>a) depletion of natural resources</b> <b>b) littering</b> <b>c) famine</b>	<b>a) racism</b> <b>b) sexism</b> <b>c) homophobia</b>	<b>a) ozone depletion</b> <b>b) nuclear waste</b> <b>c) child labour</b>
			
<b>a) eat healthily</b> <b>b) take exercise</b> <b>c) recycle, re-use</b>	<b>a) turn the heating off</b> <b>b) feed the birds</b> <b>c) don't eat sugar</b>	<b>a) support charity</b> <b>b) be aware of others</b> <b>c) feed the birds</b>	<b>a) walk in the park</b> <b>b) protect green spaces</b> <b>c) climb trees</b>
			
<b>a) cycle to work</b> <b>b) re-use and recycle</b> <b>c) eat more meat</b>	<b>a) use clean fuel</b> <b>b) eat less meat</b> <b>c) save energy</b>	<b>a) turn off electric equipment</b> <b>b) walk, don't ride</b> <b>c) have cold baths</b>	<b>a) use charity shops</b> <b>b) give to charity</b> <b>c) embrace diversity</b>
			
			<b>a) nature reserves</b> <b>b) adopt an animal</b> <b>c) help others</b>

## 2) ACTIONS THAT CAN SAVE OUR PLANET

Match words and pictures: What saves the environment?

Reducing, Reusing,  
Recycling

1

2

3

Carpooling

Cutting fuel

Planting trees

Cycling to near places

Saving tap water

No car washing by

No fire making

No littering

Recycling paper

No tree cutting

Saving electricity

Collecting garbage

4

5

6

## 2) Reading Comprehension Environmental Concern Doña Juana

Read Mariana's environmental concern and answer the questions based on the text.

Hello everyone, my name is Mariana, I am 14 years old. I live in Ciudad Bolívar, south of Bogotá, very close to Doña Juana Dump. My concern is that there are many rodents and garbage in my neighborhood, not to mention the smell that permeates the entire community.

Doña Juana is a landfill which is affecting the health of my family and my neighbors thanks to the excess of gases such as methane and carbon dioxide. I am very worried because my younger brother is only six years old. Lately he has had serious respiratory problems and now has to be hospitalized for long periods. Doctors say the toxins are affecting their health.

When the air quality of the oxygen is low, we need to use masks for safety, but we know that it is not a strong solution, we have a fight in the community and we make protests to generate policies that address the garbage problem and protect dozens of families affected in the area. capital city of Colombia.

### 3.1 Where does Mariana live?

- a) North of Bogotá
- b) South of Bogotá
- c) East of Bogotá
- d) West of Bogotá

### 3.2 What is the main concern Mariana mentions about her neighborhood?

- a) Noise pollution
- b) Air pollution
- c) Rodents and garbage
- d) Traffic congestion

### 3.3 What is the main cause of health issues in Mariana's family and neighbors?

- a) Excessive noise pollution
- b) High levels of carbon monoxide
- c) Gases emitted from Doña Juana landfill
- d) Lack of access to healthcare facilities

<b>3.4 Why is Mariana worried about her younger brother?</b> a) He is not doing well in school b) He is having respiratory problems c) He is getting bullied at school d) He is not eating properly	<b>3.5 What type of text corresponds to the reading?</b> a) Espository b) Descriptive c) Persuasive d) Narrative	
---	--	--

*3.6 How do you think living near Doña Juana Dump affects Mariana's quality of life compared to someone living in a neighborhood without such environmental hazards?*

*3.7 In what ways do you think the government could address the garbage problem and health concerns in Mariana's community besides simply implementing policies?*

*3.8 Reflecting on Mariana's situation, what are some potential long-term effects of exposure to landfill gases and pollutants on the health of residents in the area?*

3.9 Considering the challenges Mariana and her community face, how might individuals, organizations, and businesses collaborate to find sustainable solutions to the garbage problem and improve air quality?

**3.10** What role do you think public awareness and education play in addressing environmental issues like the one described by Mariana? How might raising awareness among residents and empowering them to take action contribute to positive change?
